# NetFly Omni / Dir Indoor Antennas

**A02-ANT0801** **A02-ANT08D01**
**A02-ANT0501** **A02-ANT08D02**

Thanks to NetFly antennas, it is possible to increase the wireless coverage of Access Point, Wireless Router or Client. The covered distance radius is substantially increased up to the double, by using models with a gain of 8 dBi, instead of the traditional 2 of the normal antennas.
Moreover, the directional structure allows selecting the area that you want to irradiate, by increasing the range and reducing the interferences.
NetFly antennas are easy to install: it is sufficient to substitute the previously installed antenna for increasing the wireless coverage. No further software installation or confi guration is required.

## NetFly Omni8

**A02-ANT0801**

- High Gain: 8 dBi
- Ideal with Access Point
- Connector: Reverse SMA Male plug
- Easy Installation

## NetFly Omni5

**A02-ANT0501**

- High Gain: 5 dBi
- Ideal with Access Point
- Connector: Reverse SMA Male plug
- Easy Installation

## NetFly Dir8

**A02-ANT08D01**

- High Gain: 8 dBi
- Versatile Mounting Design
- Connector: Reverse SMA Male plug
- Easy Installation

## NetFly Dir8W

**A02-ANT08D02**

- High Gain: 8 dBi
- Versatile Mounting Design
- Wall Mount or Table Mount Kit included
- Connector: Reverse SMA Male plug
- Easy Installation
